Dear Joel,

I'm leaving for California in them morning. First to SF, then to LA-San Diego. I'd like to see you and I'd like to pick up the Alyea film.

Steve Burton has been working out my LA schedule. I do not know what it is. If it goes as I hope, I'll be there part of Thursday, Friday, Sat., then San D, then back Wed to Fri a.m.

This is my first trip there since February, and I've not been posted on what's going on in LA.

If you've been doing nothing other than your usual work, let's get together. I've some ideas for what you might find marketable and I would consider helpful.

Steve's home address is 4829 Morella Ave., his phone 766-1916.

One possible story, in California, where many of his former mates are available and some film that might be interesting, could be, "Will the Real Lee Harvey Oswald Please Stand Up"? Another could be on the Americans who were Cuban mercenaries. I think the time has come when stories on the resurgence of fascism can get published, and are you on the spot for that! There could be a good story on Clint Wheat, one on Gale, one on Swith, etc. Today, with the changes I detect, this can go.

Anyway, I'd like to say "hello" again.

Sincerely,

Harold Weisberg
